

Exciting New Announcement !!

Ref: MH&W Service and Support in Asia

Following the request of quite a number of customers to provide service and support beyond the design and approval process in the USA, MH&W has opened up a NEW Support and fulfillment center in Shanghai China, with affiliated office in Hong Kong

Shanghai Consource Technology CO.,LTD

MH&W Branch Office China

Room 101,Nr. 16, Lane 1650

Youngtai Road

Pudong District

Shanghai, China

Attn: Norris Bao

Email: norrisb@consource.cn

Tel:21-50658131

Fax:21-50658132

Consource(HK) Technology Co.,LTD

Email: norrisb@consource.cn

The main function of the Center will be to service and support the affiliation and contact manufacturers of our US customers with:

- TDK-ferrites
- TDG-ferrites
- CSC-Powder Cores
- Bobbins
- Clips
- Koolbond

The opening of the Center is the final link to complete our supply chain from the early stage of design to delivering "the goods" wherever needed. We call it **GIASM (Global Integrated Account Supply Management)**

One of many advantages for our customers is that MH&W is able to provide smaller quantities not readily available in the Asian market. Manufacturers have minimum quantity requirements often far exceeding the needs of our customers. Here MH&W will be able to come to the rescue. We have extensive inventory at our fingertips. An equally important advantage is the fact that our Shanghai office can invoice in RMB, a real convenience for our customers. Our Hong Kong office can easily convert into US or HK dollars.

MH&W would like to encourage you to take advantage of our service. With over 40 years in business we know how we can help you. Please contact us.

Customer Service in the USA: 1-800-MHW-CORE (1-800-649-2673)

Email: salesm@mhw-intl.com

We are looking forward to a close cooperation.

Best regards,

Uli Gernhardt
